

Notice of Agency Rule-making Proposal

ADVERTISE: May 18, 2016

AGENCY: 09-137 Inland Fisheries and Wildlife

CHAPTER NUMBER AND TITLE: Chapter 7.0 – Rules for Importation, Possession, Propagation, Rehabilitation, and Exhibition of Wildlife

PROPOSED RULE NUMBER (*leave blank; to be assigned by Secretary of State*):

BRIEF SUMMARY:

In accordance with Public Law 2015 Chapter 374, the Department of Inland Fisheries and Wildlife is proposing to repeal and replace the current Captive Wildlife Rules.

The proposed rule will provide consistency for the captive wildlife permitting process as described in statute and will provide safeguards for Maine's citizens, protect the integrity of Maine's native species and will allow for inspections of an applicant's facilities during the application process. The proposal also clarifies which permit is necessary for each type of activity. The rule will provide categories for different wildlife species based on levels of risk, and describes the conditions that must be met in order to acquire a permit for each category of species. This rule proposes very limited species to be placed in each category. A technical committee will be reconvened and will focus on making recommendations for additional species to be placed in each category. Species/category recommendations will be provided to the Commissioner to consider during a separate rulemaking process anticipated during fall of 2016.

A complete copy of the proposed rule can be obtained from the rulemaking contact person listed below.

Date, time and location of PUBLIC HEARING (*if any*): June 7, 2016 @ 6:00 p.m. – Augusta Civic Center, Cumberland Room, 76 Community Drive, Augusta, ME

COMMENT DEADLINE: June 17, 2016

CONTACT PERSON FOR THIS FILING (*include name, mailing address, telephone, fax, TTY, e-mail*):

Becky Orff, Inland Fisheries and Wildlife, 284 State Street 41 SHS, Augusta, ME 04333; phone: 207-287-5202; fax: 207-287-6395; e-mail: Becky.Orff@maine.gov

CONTACT PERSON FOR SMALL BUSINESS IMPACT STATEMENT (*if different*):

FINANCIAL IMPACT ON MUNICIPALITIES OR COUNTIES (*if any*): No fiscal impact anticipated.

STATUTORY AUTHORITY FOR THIS RULE: 12 MRS 10104, 12152

SUBSTANTIVE STATE OR FEDERAL LAW BEING IMPLEMENTED (*if different*):

Rule-Making Fact Sheet

(5 MRSA §8057-A)

AGENCY: 09-137 Inland Fisheries and Wildlife

NAME, ADDRESS, PHONE NUMBER, E-MAIL OF AGENCY CONTACT PERSON:

Becky Orff, Inland Fisheries and Wildlife, 284 State Street 41 SHS, Augusta, ME 04333; phone: 207-287-5202; fax: 207-287-6395; e-mail: Becky.Orff@maine.gov

CHAPTER NUMBER AND RULE TITLE: Chapter 7.0 – Rules for Importation, Possession, Propagation, Rehabilitation, and Exhibition of Wildlife

STATUTORY AUTHORITY: 12 MRS 10104, 12152

DATE, TIME AND PLACE OF PUBLIC HEARING: June 7, 2016 @ 6:00 p.m. – Augusta Civic Center, Cumberland Room, 76 Community Drive, Augusta, ME

COMMENT DEADLINE: June 17, 2016

PRINCIPAL REASON(S) OR PURPOSE FOR PROPOSING THIS RULE:

This will provide consistency for the captive wildlife permitting process for both statute and rule and modify the rules as directed by the Legislature in Public Law 2015 Chapter 374.

IS MATERIAL INCORPORATED BY REFERENCE IN THE RULE? X YES NO

ANALYSIS AND EXPECTED OPERATION OF THE RULE:

The new rule will provide for a strong emphasis on helping to protect the integrity of the native species in Maine and will allow for non-department staff to review applicant's facilities during the application process. It also makes it clear which permit is necessary for the type of activity and whether a permit is necessary if a person wishes to keep wildlife in captivity. It provides categories within which a species can be placed and each category has criteria based on risk.

BRIEF SUMMARY OF RELEVANT INFORMATION CONSIDERED DURING DEVELOPMENT OF THE RULE:

Public Law Chapter 374 made several important changes within statute that needed to be reflective within IFW rules relating to this topic. A few considerations as the rules were revised included but were not limited to: clarifying the scope of the rules, what they apply to and what they do not apply to, expanding the definitions section, creating a table of contents, creating Classification of Species into Lists which included a unrestricted list, a prohibited list, a restricted list and unclassified species, creation of a 3-day hold permit for game bird propagation permit, site inspections that can be conducted by wildlife in captivity inspectors, specific requirements to meet the standards for each type of permit, transition provisions for current permit holders, and care and housing requirements incorporated by reference of an National Association's standards.

ESTIMATED FISCAL IMPACT OF THE RULE: No fiscal impact anticipated

FOR EXISTING RULES WITH FISCAL IMPACT OF \$1 MILLION OR MORE, ALSO INCLUDE:

ECONOMIC IMPACT, WHETHER OR NOT QUANTIFIABLE IN MONETARY TERMS:

[see §8057-A(2)(A)]

INDIVIDUALS, MAJOR INTEREST GROUPS AND TYPES OF BUSINESSES AFFECTED AND HOW THEY WILL BE AFFECTED: [see §8057-A(2)(B)]

BENEFITS OF THE RULE: [see §8057-A(2)(C)]

REPEAL 7.0 AS FOLLOWS:

~~09-137 DEPARTMENT OF INLAND FISHERIES AND WILDLIFE~~

~~Chapter 7: REGULATIONS FOR WILDLIFE IN CAPTIVITY~~

Scope: These rules shall apply to the possession of any wildlife in captivity and to the importation of wildlife from an area outside the State, pursuant to Title 12 MRSA. These rules are organized into general provisions applying to all permits under this Chapter, followed by specific provisions applying to each part. The approval of permits shall be subject to the ability of the applicant to meet the provisions of these rules and other legal requirements.

Part I. General Provisions

7.00 Permit Required

~~A permit is required to take alive, possess or import any native or exotic wildlife for the following purposes pursuant to Title 12 MRSA Section 12152: Wildlife Exhibit, including any commercial display of wildlife; General Wildlife Possession, including propagation or personal use of wildlife; Wildlife Rehabilitation. Wildlife Importation, pursuant to 12 MRSA Section 12155; and Scientific Collection pursuant to 12 MRSA Section 12704.~~

~~A person may not import a wolf hybrid into the State without first obtaining a Wildlife Importation Permit from the Department. A person may not keep a wolf hybrid in the State unless that person holds a Wildlife Possession Permit issued by the Department under Title 12 Section 12152, or the animal is licensed according to Title 7, Section 3921-B §2.~~

~~Wolf Hybrid is defined as a mammal that is the off spring of a species of wild canid or wild canid hybrid. "Wolf hybrid" includes a mammal that is represented by its owner or keeper to be a cross between a domestic dog (Canis familiaris) and a wild canid or wild canid hybrid, and includes without limitation, any mammal that is represented by its owner or keeper to be a wolf hybrid, coyote hybrid, coy dog or any other wild canid hybrid.~~

7.01 Unrestricted Species

~~Any wildlife species designated by the Commissioner as "unrestricted" (Section 7235-C, subsection 1, paragraph B) shall not be subject to a possession permit under Section 7235-C. Unrestricted species shall be maintained in a humane and safe manner that does not jeopardize public health and safety, the welfare of the animal, or cause a public disturbance.~~

7.02 Application Procedures

~~Requests for Wildlife Possession and Importation permits shall be made on application forms provided by the Department. The facilities where the wildlife will be kept shall be subject to a site inspection and approval by the Department before a permit may be issued.~~

7.03 — Technical Committee

— The Commissioner shall appoint a Technical Consulting Committee to provide advice regarding proposed wildlife possession and importation permits. The Committee shall include a representative from the Department's Bureau of Resource Management, the State Animal Welfare Board, State Veterinarian, a current wildlife possession permit holder; and 3 individuals having training or experience in wildlife conservation, vertebrate zoology, veterinary medicine, herpetology, or the husbandry of captive wildlife. The Commissioner will ordinarily consult with the Technical Committee prior to issuing a permit to obtain pertinent information and advice regarding the proposed possession or importation of wildlife.

7.04 — Pet shops

— No wildlife held by permit under this section may be housed in, displayed, sold or traded by a pet shop licensed or required to be licensed by the Maine Department of Agriculture.

7.05 — Review of Permit

— An applicant or permittee under this section who wishes to contest a permit condition may make a request in writing to the Commissioner, who may hear information and consult with such experts and professionals as may be appropriate to substantiate issues of public health and safety, animal welfare, or other facts relevant to the Department's responsibilities under this Chapter, and take action accordingly.

7.06 — Inspections

— Inspections of wildlife facilities and required records by authorized Department personnel and animal welfare agents may be made at all reasonable times. Findings of inspections may be provided in writing to the permittee upon request.

7.07 — Grounds for Permit Denial

— The Commissioner may deny a permit when:

- 1. — The applicant has failed to demonstrate that the purpose or methodology for the possession is legitimate under Maine statute and rules.
- 2. — The applicant does not have appropriate facilities or has failed to satisfactorily demonstrate the capability and qualifications to perform the functions required.
- 3. — The possession or activities requested potentially and unreasonably threaten a wildlife population or the public welfare.

7.08 — Conditions and Restrictions

- 1. — **Species with Special Needs or Considerations:** The Commissioner may set special conditions on a permit to mitigate potential impacts on, or from, wildlife having special needs and to ensure the welfare of such wildlife. The Commissioner may seek the advice of experts on the species involved to provide for such special needs and to ensure the welfare of the wildlife.
- 2. — **Federal Permit Requirements:** If applicable, proof must be furnished of a valid federal wildlife possession or importation permit, and compliance with the Convention on International Trade in Endangered Species (CITES).

3. **Display of Permit:** All permits issued for the possession of wildlife shall be made available for inspection by Department representatives and animal welfare agents..
4. **Security and Shelter:** Wildlife held in captivity must be contained, controlled, and sheltered in such a way as to protect it, and to protect property of others and the public health and safety.
5. **Emergency Plan:** A written Emergency Plan shall be submitted with the application for use in the event of occurrences such as: (1) severe damage to enclosures due to fire, wind, or floods; (2) animals attacking and/or injuring humans, other animals or property; and (3) the escape of any animal in captivity. The plan shall include an updated list of dangerous wildlife in captivity, the availability of capture equipment and weapons with specific instructions as to the precise circumstances under which dangerous wildlife are to be destroyed. Such plan shall be available and produced at the request of a law enforcement officer, firefighter, Department representative or Animal Control Officer. Local police or the local game warden shall be immediately notified of the escape of a dangerous animal.
6. **Costs of recovery or handling.** The permittee shall be responsible for all costs incurred by the State resulting from the escape or release of wildlife, or for the necessary confiscation of wildlife from the premises of the permittee, or as the result of the revocation of the possession permit. The Commissioner may require the posting of a bond or other financial security for this purpose.
7. **Health and Comfort:** (a) No animal shall be chained or otherwise tethered to a stake , post, tree, building or any other anchorage at any time except for training or other controlled activities, for medical treatment or grooming of such animals or as otherwise provided herein. (b) All animals held in outdoor enclosures shall be provided with adequate shelter from inclement weather and direct sunlight. Each cage or enclosure shall have shelter sufficient to simultaneously protect all animals contained therein. (c) All animals shall be provided with quarters that maintain a temperature meeting the biological needs of the animal. (d) Handling of animals shall be done as expeditiously and carefully as possible, in such a way as to avoid unnecessary discomfort, behavioral stress, or physical harm to the animal.. All wildlife shall be provided with appropriate veterinary care to include care for injuries and for the control of contagious, parasitic, and nutritional diseases.
8. **Sanitation:** All cages and enclosures shall be kept in a sanitary condition. Regular cleaning schedules shall be maintained. Trash, spilled food and fecal materials shall be removed at least once each day and more often if necessary. Cages may not be stacked in such a way that excrement may enter lower enclosures.
9. **Food and Water:** a.) An adequate supply of potable water shall be available in cages and enclosures for drinking, washing or other purposes necessary to the species being contained. b.) Regular feeding schedules shall be maintained; the rations supplied shall be adequate, nutritious, and so far as possible consistent with the food which is ordinarily eaten by such animals in the wild. Food shall be sufficient to maintain proper strength and healthy appearance. c.) Areas used for the preparation and storage of food shall be sufficiently clean to prevent contamination by pathogens or harmful substances. Meat, fish and fresh fruits and vegetables to be fed to animals shall be properly refrigerated to prevent spoilage. d.) Food for animals shall be stored in such a way as to prevent damage of food from weather, rodents, insects and animals.
10. **Cage Requirements**
 - a. The following are minimum caging requirements for animals kept in captivity. Any permittee possessing or wishing to obtain an animal not included below shall contact the Commissioner of the Department who will determine an appropriate cage size and holding requirements. The permittee shall comply with all such requirements set by the Commissioner.
 - b. All cages or enclosures shall be constructed in compliance with this Chapter.

~~New World Monkeys~~

~~1. Marmosets~~

- ~~a. Number or size 1 adult pair.~~
- ~~b. Cage size 3' long x 2' wide x 4' high.~~
- ~~c. Accessories 2 or more branch limbs for perching and a nest box.~~

~~2. Squirrel monkeys, titis, owls and other similar-sized monkeys~~

- ~~a. Number or size 1 to 3 animals.~~
- ~~b. Cage size 4' long x 5' wide x 5' high. For colonies of up to 15 monkeys, the cage shall be 12' long x 8' wide x 6' high.~~
- ~~c. Accessories 2 or more branch limbs for perching and a nest box.~~

~~3. Medium-sized South American monkeys (capuchins, sakis and other similar monkeys)~~

- ~~a. Number or size 1 pair.~~
- ~~b. Cage size 5' long x 5' wide x 6' high. For groups of 4 or more, the cage shall be 10' long x 5' wide x 6' high.~~
- ~~c. Accessories 3 parallel bars for swinging.~~

~~4. Large South American monkeys (spiders, wooleys, howlers and other similar monkeys)~~

- ~~a. number or size 1 pair.~~
- ~~b. Cage size 6' long x 6' wide x 8' high. For 2 pairs, the cage shall be 10' long x 6' wide x 8' high.~~
- ~~c. Accessories 3 parallel bars in upper part of cage for swinging plus 2 or more perching areas.~~

~~Old World Monkeys~~

~~1. Macaques, genunons, mangabys, langurs, and other similar monkeys~~

- ~~a. Number or size 1 pair.~~
- ~~b. Cage size 6' long x 5' wide x 6' high. For groups of 4 or 6 animals, the cage shall be 12' long x 8' wide x 6' high.~~
- ~~c. Accessories 3 or more perches.~~

~~2. Baboons (mandrills, dog-faced, and other similar baboons)~~

- ~~a. Number or size 1 pair.~~

b. ~~Cage size 10' long x 6' wide x 6' high. For groups of 3 to 6 animals, the cage shall be extended 3' in length for each additional animal.~~

c. ~~Accessories 2 shelves 10" to 12" wide are necessary for sleeping and resting.~~

Apes

1. Gibbons

a. ~~Number or size 1 pair plus 1 or 2 offspring.~~

b. ~~Cage size 12' long x 6' wide x 8' high.~~

c. ~~Accessories 3 parallel bars at least 4' apart must be provided in the top 1/3 of cage along the length of enclosure for swinging.~~

2. Chimpanzees and orang-utans

a. ~~Number or size Young, single animals (20 to 50 pounds).~~

b. ~~Cage size 8' long x 6' wide x 6' high. For adults, 50 pounds or over, the cages shall be 10' long x 6' wide x 8' high. For 2 or 3 adults, double the floor area.~~

3. Gorillas

a. ~~Number or size Single animal.~~

b. ~~Cage size 14' long x 12' wide x 8' high. For 2 animals, double the floor area.~~

Carnivores and certain omnivores with similar requirements

1. African lions and Asian tigers

a. ~~Number or size Single animal.~~

b. ~~Cage size 15' long x 10' wide x 6' high. For a pair, the cage shall be 20' long x 10' wide x 6' high.~~

c. ~~Accessories At least 2 claw logs, 1 shelf 30" wide, 10' long and 36" off the floor level.~~

2. Jaguars, leopards, pumas

a. ~~Number or size Single animal.~~

b. ~~Cage size 10' long x 8' wide x 6' high. For a pair, the cage shall be 15' long x 8' wide x 6' high.~~

c. ~~Accessories at least 2 claw logs and 1 shelf 24" wide, 8' long and 36" high off the floor level.~~

3. Lesser cats (bobcats, lynx, ocelots, margay, and other similar cats)

a. ~~Number or size Single animal.~~

b. ~~Cage size 8' long x 4' wide x 6' high. For a pair, the cage shall be 10' long x 4' wide x 6' high.~~

c. ~~Accessories At least 2 claw logs and 1 shelf 14" wide, 4' long and 36" high off the floor level. A den or retreat is also required.~~

4. **~~Geoffroy's cats, leopard cats and other wild cats which average 5 pounds adult weight~~**

a. ~~Number or size Single animal.~~

b. ~~Cage size 4' long x 4' wide x 6' high.~~

c. ~~Accessories At least 2 claw logs and 1 shelf or perch 3' high x 3' long x 6" wide.~~

5. **~~Cheetahs~~**

a. ~~Number or size Up to 3 animals.~~

b. ~~Cage size 40' long x 20' wide x 6' high.~~

c. ~~Accessories A shelf 30" wide x 6' long x 36" high off the floor level is required for a single animal. For 1 pair, lengthen shelf to 10'.~~

6. **~~Bears, 6' or more from rump to snout~~**

a. ~~Number or size Single animal.~~

b. ~~Cage size 25' long x 12' wide x 12' high. For a pair, the cage shall be 30' long x 15' wide x 12' high.~~

c. ~~Accessories a pool 6' wide x 10' long x 4' deep is mandatory for polar bears. Either this large pool or in its stead a fresh water drinking pool 2' wide x 2' long x 18" deep with facilities for spraying or wetting the animals during hot weather periods is required for all other bears of this size class.~~

7. **~~Bears up to 6' from rump to snout~~**

a. ~~Number or size Single animal.~~

b. ~~Cage size 20' long x 10' wide x 7' high. For a pair, 30' long x 10' wide x 7' high.~~

c. ~~Accessories A fresh water drinking pool 2' wide x 2' long by 18" deep with facilities for spraying or wetting the animals during periods of hot weather is required.~~

8. **~~Sun bears~~**

a. ~~Number or size Single animal.~~

b. ~~Cage size 12' long x 8' wide x 6' high. For a pair, the cage shall be 15' long x 8' wide x 6' high.~~

c. ~~Accessories A fresh water drinking pool 2' wide x 2' long by 18" deep with facilities for spraying or wetting the animals during periods of hot weather is required.~~

~~9. **Raccoons, coati-mundi, sloth, tayra and others of similar size and habits, including North and South American porcupines and hyraxes**~~

~~a. **Number or size** Single animal.~~

~~b. **Cage size** 6' long x 5' wide x 6' high. For 2 or 3 animals, cages shall be 8' long x 5' wide x 6' high. Add 2' in length for each additional animal over 3 animals.~~

~~c. **Accessories** 1 shelf per animal plus at least 2 limbs for climbing area also required. Sloths require upright tree trunk with lateral branches of adequate size and strength to comfortably support the animal in normal posterial modes.~~

~~10. **Kinkajous, opossums, pottos, grissons, gallagos, tamanduas, slow loris, genets, and other small climbing animals**~~

~~a. **Number or size** Single animal.~~

~~b. **Cage size** 4' long x 4' wide x 6' high. For a pair, cages shall be 6' long x 4' wide x 6' high. For additional animals, add 1' more of length per animal.~~

~~c. **Accessories** At least 3 limbs for climbing are required.~~

~~11. **Squirrels, tree shrews, and others of similar size and habits**~~

~~a. **Number or size** 1 to 2 animals.~~

~~b. **Cage size** 3' long x 2' wide x 4' high. Add 6" more in length for each additional animal.~~

~~c. **Accessories** At least 3 limbs and a nest box are required.~~

~~12. **Agouti, pacas, wild rabbits, acushi, skunks and other rabbit-sized ground animals**~~

~~a. **Number or size** Single animal.~~

~~b. **Cage size** 6' long x 3' wide x 3' high. For a pair or more, add 1' in length for each additional animal.~~

~~c. **Accessories** 2 or more gnawing logs are required.~~

~~13. **Badger, large-crested porcupine and similar-sized ground animals**~~

~~a. **Number or size** Single animal.~~

~~b. **Cage size** 8' long x 6' wide x 4' high. Add 3' in length for each additional animal.~~

~~c. **Accessories** 2 or more gnawing logs are required.~~

~~14. **Beavers, muskrats and other semi-aquatic small animals**~~

~~a. **Number or size** 1 to 3 animals.~~

~~b. **Cage size** 8' long x 4' wide x 5' high. Add 2' in length for each additional animal.~~

- c. Accessories—A pool which measures 4' wide x 4' long x 24" deep, 2 or more gnawing logs, and a nest box or retreat are required.

15. **Otter**

- a. Number or size—1 pair.
- b. Cage size—10' long x 6' wide x 6' high.
- c. Accessories—A pool 4' wide x 6' long x 3' deep at one end. Increase cage and pool by 25% in horizontal dimensions for each additional animal. A slide and a dry place for a sleeping retreat are required.

16. **Pygmy hippopotamus, tapirs, capybaras, giant anteaters, and others of similar size**

- a. Number or size—Single adult animal.
- b. Cage size—14' long x 15' wide.
- c. Accessories—A stepped or non-skid pool 6' wide x 8' long x 4' deep (not necessary for anteaters) is required. Increase the horizontal dimension in cage and pool size by 30% for each additional animal.

17. **Foxes, jackals, and others of similar size and habits**

- a. Number or size—1 pair.
- b. Cage size—8' long x 4' wide x 6' high.
- c. Accessories—1 shelf 18" wide x 3' high x 4' long is required. A den or nest box area is also required.

18. **Wolves, hyenas**

- a. Number or size—Single animal.
- b. Cage size—1 animal, 15' long x 8' wide x 6' high; 2 animals, 15' long x 10' wide x 6' high; for each additional animal, add 5' to cage length.
- c. Accessories—A secluded den area 4' wide x 4' high is required for a single animal; add 3' in length for each additional animal.

19. **Coyotes, cape hunting dog, dingos, wolverines, and others of similar size and habits**

- a. Number or size—Single animal.
- b. Cage size—10' long x 8' wide x 6' high. For a pair, double the cage length. For each additional animal after 2, add 10' in length to the cage.
- c. Accessories—a secluded den area that is 4' wide x 4' high for single animal is required; add 3' in length for each additional animal.

20. **Weasels, martens, polecats, ferrets**

- a. Number or size—1 pair.

~~b. Cage size 6' long x 3' wide x 3' high.~~

~~c. Accessories a den is required.~~

~~21. Wolf Hybrids~~

~~a. Number or size Single animal~~

~~b. Cage size 1 animal, 15' long x 8' wide x 6' high; 2 animals, 15' long x 10' wide x 6' high; for each additional animal, add 5' to cage length. Cage must have a top and a solid floor or if uncovered shall have vertical jump walls at least 8 feet high, with a 45-degree inward angle overhang 2 feet wide or, jump walls 10 feet high without an overhang. Cages must be of sufficient construction to prevent the animals in the facility from going through it or under it and escaping.~~

~~c. Accessories A secluded den 4' long x 4' wide x 4' high is required for a single animal; add 3' in length for each additional animal.~~

~~d. Cages or pens holding wolf hybrids must be placed in a location that prevents unauthorized humans or other animals from having contact with the animals within it.~~

~~e. A wolf hybrid that is taken off the premises of the permittee shall be on a leash or in an appropriate cage and under the permittee's or their agent's direct control so they maintain reasonable control of the conduct of the animal. Wolf hybrids that are kept as family pets may be housed within the family residence.~~

~~Marsupials and others~~

~~1. Kangaroos (large wallaby, wallaroo, and other kangaroos of similar size)~~

~~a. Number or size Single animal.~~

~~b. Cage size 20' long x 12' wide x 8' high. For each additional animal, add 25% surface area to cage.~~

~~c. Accessories a refuge area and shade are required. The ideal situation is an open paddock. If surface is of an artificial material, it shall be a non-skid surface.~~

~~2. Small wallaby~~

~~a. Number or size 1 to 2 animals.~~

~~b. Cage size 12' long x 4' wide x 6' high. Each additional animal requires a 25% increase in surface area.~~

~~c. Accessories Refuge area and shade are required. If surface is of an artificial material, it shall be a non-skid surface.~~

~~3. Hedgehogs~~

~~a. Number or size 1 to 2 animals.~~

~~b. Cage size 4' long x 4' wide x 2' high.~~

c. ~~Accessories~~ Cage should be constructed with a dirt floor over a wire bottom.

4. **Armadillos**

a. ~~Number or size~~ Single animal.

b. ~~Cage size~~ a 6' circular cage (if not circular, must have same area with rounded corners) having a minimum radius of 2' in diameter for each additional animal.

c. ~~Accessories~~ The cage must be constructed with a dirt floor over a wire bottom.

Odd and even-toed animals, ostriches and other large running birds

1. **Large-sized (zebras, elk, giraffes, asses, wildebeests, camels, elands, buffaloes, bison, and others of similar size and habits)**

a. ~~Number or size~~ Single animal.

b. ~~Cage size~~ 1,000 sq. ft. paddock or corral. Each additional animal requires 25% more area.

c. ~~Accessories~~ Barn or shaded or protected area attached to or adjoining the paddock or corral.

2. **Medium-sized (ostriches, white-tailed deer, fallow deer, llamas, aoudads, wild goats and sheep-type animals, emus, cassowaries, and rheas)**

a. ~~Number or size~~ Single animal.

b. ~~Cage size~~ 500 sq. ft. paddock or corral. Increase horizontal dimensions by 25% for each additional animal.

c. ~~Accessories~~ A shelter is required.

3. **Small-sized (dikdiks, small gazelles, peccary)**

a. ~~Number or size~~ Single animal.

b. ~~Cage size~~ 300 sq. ft. paddock or corral. Increase horizontal dimension by 25% for each additional animal.

c. ~~Accessories~~ A shelter is required.

4. **Rhinoceros**

a. ~~Number or size~~ Single animal.

b. ~~Cage size~~ 1,500 sq. ft. paddock or corral is required. Each additional animal requires 50% increase in horizontal dimensions.

c. ~~Accessories~~ A heated barn or shelter and shade are required.

5. **Elephants**

a. ~~Number or size~~ Single animal.

b. ~~Cage size 1,500 sq. ft. paddock or corral. Whether chained or unchained, each animal must be able to utilize the entire 1,500 sq. ft. area. Each additional animal requires a 50% increase in horizontal dimensions.~~

c. ~~Accessories a heated barn or shelter and shade are required.~~

6. **Hippopotamus, Nile**

a. ~~Number or size Single animal.~~

b. ~~Cage size 600 sq. ft. plus 300 sq. ft. pool.~~

c. ~~Accessories 300 sq. ft. non-skid ramped pool with a 5' depth. Each additional animal requires a 25% increase in pool and land area.~~

Reptiles

1. **Snakes**

a. ~~Number or size 1 to 4 specimens.~~

b. ~~Cage size The perimeter of the enclosure shall be at least 1.5 times the length of the longest snake in the enclosure. The cage shall be high enough to incorporate an irregular limb the approximate diameter of the snake; or a ledge for resting. Cages for large arboreal snakes shall be at least 5' high for snakes 10' or more in length.~~

c. ~~Accessories Enclosures must have shaded area; for the large snakes, heavy plate or laminated glass fronts. A large rock for shedding purposes shall be provided. A shallow pool of sufficient size in which the snake can submerge 95% of its body shall also be provided for all snakes.~~

2. **Lizards (anoles, fence lizards and skinks and other lizards 2" to 6")**

a. ~~Number or size 1 pair.~~

b. ~~Cage size 12" long x 8" wide x 10" high. For each additional pair, add 2" to length and width.~~

c. ~~Accessories Branches for climbing and drinking (lapping) water, access to sunlight or ultraviolet light (vitamin D) and shade.~~

3. **Lizards 7" to 12" in length**

a. ~~Number or size 1 pair.~~

b. ~~Cage size 20" long x 10" wide x 15" high. For each additional pair, add 4" to the length and width.~~

c. ~~Accessories The same as required for 2" to 6" lizards.~~

4. **Lizards 1 1/2' x 2' in length**

a. ~~Number or size. 1 pair.~~

b. ~~Cage size 30" long x 15" wide x 12" high. For each additional pair, add 6" to length and width.~~

c. ~~Accessories Same as required for 2" to 6" lizards.~~

5. **Lizards 2 1/2' to 4' in length**

a. ~~Number or size 1 pair.~~

b. ~~Cage size 36" long x 15" wide x 18" high. For each additional pair, add 10" in length and width.~~

c. ~~Accessories Same as required for 2" to 6" lizards.~~

6. **Lizards 5' to 6' in length**

a. ~~Number or size 1 pair.~~

b. ~~Cage size 6' long x 3' wide x 4' high. For each additional pair, add 1' in length and width.~~

c. ~~Accessories Same as required for 2" to 6" lizards.~~

7. **Gila monster and beaded lizards**

a. ~~Number or size Single animal.~~

b. ~~Cage size 24" long x 18" wide x 15" high with round instead of squared corners at vertical side joints. For each additional lizard, add 4" to the length and width of cage.~~

c. ~~Accessories 2 or more rocks for climbing should be substituted for limbs. Other requirements: access to sunlight or ultraviolet light and shade.~~

8. **Turtles and terrapins**

a. ~~Number or size 1 to 2 animals.~~

b. ~~Cage size Require land and water area 10 times their body size. Add 5 times body size for each additional animal. Water area shall be at least 50% of the total area and permit complete immersion by the largest animal.~~

c. ~~Accessories Both sun and shade areas are required. Softshelled turtles shall have a soft bottomed pool.~~

9. **Tortoises**

a. ~~Number or size 1 to 2 animals.~~

b. ~~Cage size Required land area 10 times their body size. Add 7 times body size for each additional animal.~~

c. ~~Accessories Shaded area and a sloped pool with running water at least 25% as deep as the tortoise is high and approximately 2 times the area covered by the body of the largest tortoise.~~

10. **Alligators and crocodiles**

- a. **Number or size**—Single animal.
- b. **Cage size**—Each single animal must be able to submerge itself in water and turn around; each animal must have room to move and turn around on land. For large number displays of alligators and crocodiles, the combined area covered by all animals' bodies shall be not greater than 50% of the total land or total water area provided.

Birds

1. **General requirements**—Enclosures for flying birds shall either be small enough to inhibit flying altogether, or large enough to permit aerial maneuvering within the enclosure. Any enclosure not sufficiently large may result in injuries from birds flying into the sides of the enclosures.

2. **Parrot-type (macaws, large cockatoos)**

- a. **Number or size**—Single bird.
- b. **Cage size**—adequate room for turning and sitting on a perch without touching its tail against sides or bottom of cage is required.
- c. **Accessories**—Suitable perch that is large enough so that the claws do not meet on the underside.

3. **Medium-sized parrots (small cockatoos, yellow heads, grays, Amazons)**

- a. **Number or size**—Up to 2 specimens.
- b. **Cage size**—18" long x 18" wide x 24" high.
- c. **Accessories**—1 suitable perch per bird; diameter of perch must be large enough so that claws do not meet on the underside.

4. **Small parrots (lovebirds, parakeets, and similar parrots)**

- a. **Number or size**—1 or 2 birds.
- b. **Cage size**—12" long x 24" wide x 10" high. Community cages must provide flight space.
- c. **Accessories**—1 or more suitable perches (diameter must be large enough so that claws do not meet on underside).

5. **Waterfowl**

- a. **Number or size**—Not more than 2 pairs of adults or 1 pair and offspring of the year.
- b. **Cage size**—100 sq. ft. of area with adequate water to meet the biological needs of the species.

6. **Eagles, hawks, owls, vultures, toucans and toucanets**

a. ~~Number or size—Single bird.~~

b. ~~Cage size—Cage must be wide enough for the bird to spread its wings and fly-hop from floor to perch. Width shall be 2 times greater than wingspread. Perch to ground shall be twice as long as its body. Length of cage shall be 5 times the body length. Increase cage size by 50% in length and 25% in width for each additional bird.~~

c. ~~Accessories—At least 1 suitable perch per bird (the diameter of the perch shall be large enough so that talons do not meet on the underside). For large birds of prey, a stump high enough that when a bird is perched, the tail feathers are 6" off the floor. Roof of cage shall be of sufficient height to permit the bird to rest erect on any of the perches.~~

7. ~~Wild turkeys, peafowl and curassows~~

a. ~~Number or size—1 to 3 birds.~~

b. ~~Cage size—144 sq. ft. of horizontal space. Male peafowl must have adequate turning room for its tail. Enclosures shall be at least 6' high.~~

c. ~~Accessories—Must have at least 1 roost perch approximately 4' from floor.~~

8. ~~Lesser game birds, pheasants, and others of similar size~~

a. ~~Number or size—1 to 5 birds.~~

b. ~~Cage size—100 sq. ft. of horizontal space. Enclosure shall be at least 6' high. Each additional bird requires an additional 20 sq. ft.~~

c. ~~Accessories—Must have at least 1 roost perch approximately 30" from the floor.~~

9. ~~Community groups of finches and seedeaters~~

a. ~~Number or size—Community group of 25 or less.~~

b. ~~Cage size—4' wide x 8' long x 8' high.~~

10. ~~Medium-size flight birds (jays, starlings, doves, pigeons, and others of similar size)~~

a. ~~Number or size—1 to 2 birds.~~

b. ~~Cage size—3' long x 2' wide x 5' high. For a community group the cage must be large enough to allow flying and be at least 8' in diameter. These birds may be kept in a parrot-style cage.~~

11. ~~Wading birds (flamingos, ibises, spoonbills, herons, egrets, and others of similar size and habits)~~

a. ~~Number or size—1 to 5 birds.~~

b. ~~Cage size—144 sq. ft. of horizontal space. Birds in open, fenced areas shall be penned.~~

c. ~~Accessories—Shallow pools for wading plus dry land areas.~~

~~12. Storks and cranes~~

- ~~a. Number or size 1 pair.~~
- ~~b. Cage size 144 sq. ft. of horizontal space.~~

~~13. Pelicans, cormorants and swans~~

- ~~a. Number or size 2 birds.~~
- ~~b. Cage size 144 sq. ft. of horizontal space. 50% of area shall be water at least 18" deep. Add 25% more area in land and pool for each additional bird.~~

~~14. Penguins~~

- ~~a. Number or size 1 pair.~~
- ~~b. Cage size 100 sq. ft. of horizontal space of which 50% is water at least 36" deep. Add 10% area in water and land for each additional bird.~~
- ~~c. Accessories Water must be cooled to 55 degrees Fahrenheit and be flowing. Chilled waters shall not be required for Humboldt's penguins.~~

7.09 Penalty

~~Any violation of these rules or the conditions of any permit may subject the permittee to the following:~~

- ~~1. Upon conviction of a violation relating to this Chapter, punishment as provided by Title 12 MRSA Section 7901-A.~~
 - ~~2. Suspension or revocation of the permit pursuant to 12 MRSA Section 7077.~~
- ~~_____~~

Part II. Wildlife Exhibit Permit

7.20 — Issuance

- ~~_____ The commissioner may issue a permit to a person or institution, pursuant to Title 12 MRSA Section 12152, for the purpose of keeping wildlife (except wolf hybrids) in captivity for commercial exhibition, attracting trade, or for educational purposes, when the following terms are met:~~
- ~~_____ 1. _____ All applicable requirements as listed in Part I must be met as a condition of holding wild animals for exhibition.~~
 - ~~_____ 2. _____ **Site Inspection:** A site inspection by a Department or Animal Welfare representative must be performed before a permit may be issued to ensure compliance with these rules and all permit conditions.~~
 - ~~_____ 3. _____ **Personnel:** Assurance must be provided that a sufficient number of adequately trained employees will be utilized to comply with these rules. Such personnel shall work under a supervisor who has a proven record of animal care.~~

7.21 — Public Health and Safety

- ~~_____ 1. _____ Safety measures shall be undertaken to adequately prevent wildlife from causing injury by touching, grasping or biting visitors. For any potentially dangerous wildlife, barriers such as walls, fences, moats, retaining rails or other necessary devices shall be present to prevent the public from approaching the cages, pens, enclosures or areas near enough to inadvertently make contact with the wildlife.~~
- ~~_____ 2. _____ Signs shall be conspicuously posted on cages or enclosures, requesting that the public refrain from annoying animals.~~
- ~~_____ 3. _____ Feeding of animals by the public is prohibited unless the food meets the standards set forth in these rules.~~

7.22 — Record Keeping and Permit Renewal

- ~~_____ 1. _____ Licensed wildlife exhibitors must keep a log book and inventory of wildlife and a record showing births, deaths, transfers and medical treatments. Records must be shown to inspecting officers when requested. For off-site education exhibits, a record must be kept of the individuals or groups for which exhibits have been held.~~
- ~~_____ 2. _____ **Identifying Name Labels** — Each enclosure or cage shall be labeled with the proper common name in English, and the Latin scientific name of the animals or birds, for the information of the public and/or Department.~~
~~_____~~

Part III. Propagation and General Possession

7.30 — Issuance

— The commissioner may issue a permit to a person or institution, pursuant to Title 12 Section 12152, to possess a wildlife for the following purposes:

- 1. — **Wildlife Propagation:** The holding of wild animals (except wolf hybrids) or wild birds for the purpose of propagating, breeding and/or rearing for consumption, sale or release.
- 2. — **General wildlife possession:** The possession of wildlife for serious professional or avocational husbandry; or for the legitimate therapy or aid for people with disabilities.

7.31 — Renewal

— The permit is valid for 2 calendar years.

7.32 — Restrictions and Conditions

— The following conditions shall apply to all permits issued under this Part.

- 1. — All applicable requirements as listed in Part I must be met.
- 2. — Pursuant to Title 12 MRSA §7235 C, the following species may not be possessed: bear, deer, moose, wild turkey, hybrid wild turkey, or wild turkey domestic turkey cross.
- 3. — No species may be allowed to roam freely outside a containment area, or taken off the premises of the permittee, or taken into a public area, except to be released for stocking purposes, transfer or sale, or for noncommercial show purposes, veterinary care, or as may be otherwise approved by the commissioner. Wildlife must be controlled at such times by a leash, or contained in an appropriate cage.
- 4. — The addition of any new species, or increase in the numbers of previously permitted species except by birth, must be approved by the Commissioner before they may be possessed or added to a valid permit under this section.
- 5. — **Housing:** All wildlife shall be confined at all times in stalls, rooms, or outside enclosures of such strength and type of construction that it is impossible for the animals to escape.
- 6. — *(Not in use)*
- 7. — **Special Needs:** The permittee shall ensure that the comfort and unique needs of non indigenous (exotic) species are met, as may be described in published references, or as recommended by recognized experts on that species, or as directed by the commissioner as a condition of the permit.
- 8. — **Hybrid and/or Domesticated Wildlife:** This Part shall apply to any wildlife that has been hybridized, genetically altered, or reared in captivity, except any domestically raised, hybridized or genetically altered wild animals specifically held for agricultural production pursuant to Title 7 MRSA Section 1331 shall be exempt.

7.33 — Specific Animals and Birds

1. **Primates:** No primate shall be permitted under this Part , except for purposes of therapeutic, emotional, or handicapped aid.
 - a. The applicant/permittee must demonstrate a legitimate need for physical or emotional aid from a primate, and the animal in question must be specifically trained for such purposes, or the applicant must be providing foster care or training for the primate under direction or supervision of a recognized authority for same.
 - b. The animal must be supplied by, or approved by, a recognized institution or organization specializing in such use of primates.
 - c. The primate held in captivity for said purposes must be vaccinated as may be prescribed by a qualified veterinarian or public health official, and is prevented at all times from direct contact with the public in such a way that physical injury or disease transmission may occur.
 2. **Wolf Hybrids:** No Wolf Hybrid may be permitted under this part unless the applicant has first presented proof from a licensed veterinarian that:
 - a. The wolf hybrid has been permanently identified in accordance with Title 7 Section 3921 A:
 - b. The wolf hybrid has been spayed or neutered: and
 - c. All other criteria for a Wildlife Possession Permit have been met.
 3. **Disposition of Wolf Hybrid at large**
 - a. **Owner of wolf hybrid located.** If a wolf hybrid at large is licensed under Title 7 Section 3922, §3 B or Title 12 Section 12152 or its owner can otherwise be identified and located, an animal control officer or person acting in that capacity shall take the wolf hybrid to its owner and may issue citations for violations of Title 7, Section 3911 B.
 - b. **Unable to locate owner.** Should the owner of record not be able to be located, an animal control officer or person acting in that capacity shall take the wolf hybrid to the animal shelter designated by the respective municipality in which the wolf hybrid was found. An animal shelter that accepts a wolf hybrid under this subsection is entitled to receive from the Department the sum of \$4 a day for the period for which food and shelter are furnished, not to exceed 6 days. The wolf hybrid will be held for 6 days during which the owner may reclaim the animal provided they are able to show the animal is/will be properly licensed under Title 7 or Title 12. Upon expiration of the 6 day period, ownership of the wolf hybrid is vested in the shelter. The animal shelter shall:
 1. Transfer ownership of the wolf hybrid to a person holding a permit to possess wildlife under Title 12, Section 12152 and authorized to accept wolf hybrids in compliance with rules adopted under Title 12, Section 12160, §2 or,
 2. After keeping the wolf hybrid for 8 days, euthanize the wolf hybrid humanely in accordance with Title 17, Chapter 42, subchapter 4.
-

Part IV. Wildlife Rehabilitation Permit

7.40 — Issuance

~~Pursuant to Title 12 MRSA §7235 C, a wildlife rehabilitation permit may be issued to possess debilitated or orphaned wild animals and wild birds for the purpose of restoring them to full health and release to the wild, or to be humanely euthanized.~~

- ~~1. **Examination:** Applicants for a rehabilitation permit must successfully complete an examination prescribed by the Commissioner, which may include a written test, to show proficiency and knowledge in the area of wildlife husbandry and rehabilitation and the pertinent laws of the State and rules of the Department.~~
 - ~~2. **Expenses:** The permittee is responsible for rehabilitation, including food and shelter, veterinary care, any labor or consultation charges, transportation, and any other costs or charges associated with the rehabilitation of wildlife. Permittees may not charge any third party for such costs unless said permittee is a licensed Maine veterinarian. Voluntary contributions to rehabilitation facilities or organizations may be accepted.~~
 - ~~3. All rehabilitation activities must meet minimum standards as published by the International Wildlife Rehabilitation Council, and/or National Wildlife Rehabilitation Association.~~
 - ~~4. **Dependency:** Every measure shall be taken to prevent wildlife dependency on humans.~~
 - ~~5. **Disposition of all Wild Animals or Birds Subject to Rehabilitation:** All wildlife subject to rehabilitation must be released to the wild at the earliest appropriate time, or humanely destroyed, and may not be kept in captivity beyond 6 months. The Commissioner may, upon request, extend this time period.~~
-

Part V. Wildlife Importation Permit

7.51 Issuance

~~No species of wildlife, except those listed by the Commissioner as unrestricted, shall be imported into the State of Maine without a Wildlife Importation Permit issued by the Commissioner. For the purpose of this regulation, importation includes bringing or causing to be brought into Maine any regulated wildlife by any means including the subsequent possession of other vertebrates not subject to wildlife definition pursuant to Title 12 MRSA Subchapter VII Section 7001.~~

~~1. **Exceptions.** A wildlife importation permit shall not be required for wildlife that is in continuous transit through Maine.~~

~~2. **Criteria for Permit Approval.** In determining if the importation of a species shall be permitted, and what permit conditions should apply, the Commissioner will consider the following factors:~~

~~a. Whether the geographical distribution and life requisites of the species increase the likelihood of the species surviving in Maine if accidentally or intentionally introduced into the wild.~~

~~b. Whether there is a history of adverse environmental impacts of the species in other locations.~~

~~c. Whether it is possible that the species may harbor or disseminate an agent harmful to humans, domestic livestock, poultry, native wildlife, or other animals.~~

~~d. Whether the species is capable of inflicting serious bodily harm to humans.~~

~~e. Whether the applicant has met the provisions of section 7.07 (1).~~

~~f. Whether the applicant has furnished the commissioner with an interstate health certificate/certification of veterinary inspection and appropriate test results or statements about specific diseases. This certification must comply with the standards of the state of origin and issued by a veterinarian licensed in the state of origin. USDA accreditation of the veterinarian may be required for certain livestock and poultry disease testing. Information required on the health certificate shall include: common and scientific name(s) of species; number to be imported; name and address of consignor and consignee; origin or shipment; destination of shipment; appropriate descriptions of animals by criteria such as sex, age, weight, coloration, tag numbers, brand, etc. The health certificate should be signed by the issuing veterinarian and the owner or owner's representative from the point of origin. The Department of Agriculture and the Department of Human Services shall have the authority to approve disease test procedures and serve as the State's representative in interpreting the results of all tests administered in compliance with importation statutes and regulations.~~

~~Part VI. Scientific Collection Permit~~

~~7.60 Issuance~~

~~_____ The commissioner may issue a permit, pursuant to Section 7242, to hunt, trap, possess, band and transport wild animals and certain wild birds for:~~

- ~~_____ 1. _____ Scientific research or wildlife management use approved by the Department.~~
- ~~_____ 2. _____ Salvage for scientific or educational purposes of wildlife that is found dead.~~

~~7.61 Application~~

- ~~_____ 1. _____ Applications must include a full description of the purpose for which the permit will be used and documentation of institutional support.~~
- ~~_____ 2. _____ All applications shall be reviewed by a scientific and/or educational specialist selected by the commissioner.~~

~~7.62 Restrictions and conditions~~

- ~~_____ 1. _____ In addition to those listed herein, all applicable requirements as listed in Part I shall be met.~~
 - ~~_____ 2. _____ Other restrictions or conditions may be specified by the Commissioner to ensure appropriate use of the permit for scientific, education or salvage purposes.~~
 - ~~_____ 3. _____ If applicable, proof must be furnished of a valid federal scientific collection or special purpose permit.~~
-

REPLACE 7.0 AS FOLLOWS:

Chapter 7: RULES FOR IMPORTATION, POSSESSION, PROPAGATION, REHABILITATION, AND EXHIBITION OF WILDLIFE

7.01 Scope of Rules:

The Department of Inland Fisheries and Wildlife is established to preserve, protect and enhance the inland fisheries and wildlife resources of the state; to encourage the wise use of these resources; to ensure coordinated planning for the future use and preservation of these resources; and to provide for the effective management of these resources.

Pursuant to 12 M.R.S. §12152 the commissioner has the authority to adopt rules necessary for the administration of wildlife in captivity, including provisions to ensure that all wildlife possessed under these permits receives humane treatment and proper husbandry and security, and to safeguard the interests of the wildlife and citizens of the State. Non-native wildlife potentially carries risks for the native wildlife resources and ecosystems of the State of Maine and the public at large. Collection of some native wildlife can be unsustainable and when held in captivity may pose risks upon release. With changing environmental conditions and the inherent adaptability of wildlife, the ability to predict the likelihood of a non-native wildlife species to survive in the wild is difficult. Therefore, these rules are established to protect Maine's wildlife and people from the introduction or spread of diseases, the establishment of exotic species, and from bodily injury caused by dangerous native and exotic wildlife species. These rules are also established to govern trade in wildlife species that are rare or threatened in their native range and to ensure the proper care and welfare of all wildlife in captivity.

These rules are organized into general provisions applying to all permits under this Chapter, followed by specific provisions applying to each permit. The approval of permits shall be subject to the ability of the applicant to meet the provisions of these rules and other legal requirements.

These rules shall apply to:

1. The possession, propagation, rehabilitation, or exhibition of any wildlife in captivity and to the importation of live wildlife from an area outside the state, including wildlife that has been hybridized, genetically altered, or reared in captivity, pursuant to 12 M.R.S. Part 13.

These rules do not apply to:

1. The collection or use of any native wildlife from within Maine for scientific or educational purposes as provided within 12 M.R.S. and department rule chapter 6; or
2. The harvest of amphibians or nonmarine invertebrates for the purpose of export, sale or commercial purposes as provided within 12 M.R.S. §12159 and §12161 and as provided within department rule chapter 26; or
3. The possession, propagation, and exhibition of fish which can be found within 12 M.R.S and as provided with department rule chapter 2; or
4. The release of captive, raised, or imported wild animals or wild birds into the wild as provided within 12 M.R.S. §12156; or
5. Importation permits specific to pheasants, which can be found within 12 M.R.S. § 12158; or
6. Importation permits issued to operators of commercial shooting areas specific to mallard ducks, quail, chukar partridge and Hungarian quail, which can be found within 12 M.R.S. §12102;
7. The importation, capture or possession of raptors for hunting as provided within 12 M.R.S. §11159 and department rule chapter 4; or
8. Savannah cats that are an F4 or higher generation; or

9. Any domestically raised, hybridized or genetically altered wildlife specifically held for agricultural production pursuant to 7 M.R.S.; or
10. The importation or possession of dead wildlife or wildlife parts that are legally possessed; or
11. The hunting or possession of wildlife within commercial large game shooting areas as provided within Title 7 M.R.S. §1342-A.

7.03 Governing Agencies:

1. **The Maine Department of Inland Fisheries & Wildlife:** (the “department”) regulates the importation, possession, propagation, rehabilitation and exhibition of wildlife in accordance with 12 M.R.S. § 12152, has authority to regulate the possession of wildlife in captivity in the state.
2. **The Maine Department of Marine Resources:** has lead management authority for marine mammals, marine turtles, marine fishes, and marine invertebrates and regulates the importation of marine organisms and diadromous fishes if they are intended for introduction into the coastal waters or marine environment of the state pursuant to 12 M.R.S. § 6701.
3. **The Maine Department of Agriculture, Conservation and Forestry:** in accordance with Title 7 M.R.S. Part 9 has authority to regulate licensing of pet shops, animal shelters, agricultural fairs and commercial large game shooting areas.

4. **The United States Department of Agriculture:** in accordance with 7 U.S. Code Chapter 54 has federal authority to regulate transportation, sale, and handling of certain animals and requires anyone wishing to conduct activities with wildlife in a manner regulated under the Animal Welfare Act to hold a valid and current USDA License.
5. **The United States Fish and Wildlife Service:** in accordance with 022 FW 1.1, the USFWS is responsible for conserving, protecting, and enhancing fish and wildlife and their habitats for the continuing benefit of the American people through federal programs relating to migratory birds, endangered species, interjurisdictional fish and marine mammals, and inland sport fisheries.

7.04 **Definitions:**

1. **“Dangerous Wildlife”:** means any wildlife capable of inflicting serious bodily injury.
2. **“Exhibitor”:** means a person or organization that shows, displays, exhibits, or trains wildlife for the purpose of conservation or public education, and who meets the requirements of section 7.11 of this chapter. An exhibitor does not include a person who shows wildlife in connection with theatrical exhibition, circus, or agricultural fair.
3. **“Husbandry”:** the act of caring for and breeding of wildlife.
4. **“Importation”:** bringing or causing to be transported into the state any wildlife species.
5. **“Native species”:** means wildlife species that are naturally occurring or naturalized in Maine.
6. **“Naturalized species”:** means an exotic or an introduced species of wildlife that has become established in Maine.”
7. **“Propagation”:** means the raising, possessing or reproduction of wildlife (except wolf hybrids) for the purposes of consumption, release, sale or other pecuniary gain.
8. **“Protected Contact”:** The management of an animal in a manner which the keeper and the animal do not share the same unrestricted space.
9. **“Public Contact”:** Any circumstance in which there is physical interaction between a person and wildlife, including physical interaction with wildlife from outside the exhibit or enclosure.
10. **“Research Facility”** means any school (except an elementary or secondary school), institution, or organization that uses or intends to use live animals in research, tests, or experiments, and that purchases or transports live animals in commerce, or receives funds under a grant, award, loan, or contract from a department, agency, or instrumentality of the United States for the purpose of carrying out research, tests, or experiments.
11. **“Serious Bodily Injury”:** means bodily injury that involves:
 - A. Substantial risk of death; or
 - B. Extreme physical pain; or
 - C. Protracted and obvious disfigurement; or
 - D. Protracted loss or impairment of the function of a body part, organ, or mental faculty.

7.05 **Technical Committee:** The commissioner shall appoint a Technical Committee to provide advice regarding proposed wildlife in captivity permits, or the conditions that should accompany the issuance of a permit. The commissioner may consult with the Technical Committee as necessary, including but not limited to for the purpose of obtaining pertinent information and advice regarding the issuance, denial or revocation of permits authorizing the possession or importation of wildlife and to review requests to change the categorization of species.

1. Committee Composition: the Committee shall include a representative from the following:

- A. The Department's Bureau of Resource Management;
- B. The Animal Welfare Program in the Department of Agriculture, Conservation, and Forestry;
- C. The State Veterinarian;
- D. A current wildlife possession permit holder and;
- E. A minimum of three individuals having relevant degrees and/or documented experience and/or training in:
 - (1) wildlife biology/conservation; or
 - (2) vertebrate zoology; or
 - (3) veterinary medicine; or
 - (4) herpetology; or
 - (5) entomology; or
 - (6) ichthyology; or
 - (7) the husbandry of captive wildlife; or
 - (8) animal welfare.

2. Duties and expectations: The duties and expectations of the committee may include but are not limited to the following:

- A. making scientific recommendations on the appropriate classification of a species;
- B. providing advice on whether or not to issue a proposed wildlife in captivity permit;
- C. providing recommendations on the conditions that should accompany the issuance of a permit for a specific species.

7.06 Classification of Species:

1. Unrestricted List: *A person can possess any wildlife on this list without a permit.*

Pursuant to 12 M.R.S. §12152 an “Unrestricted Species List” shall be maintained by the department, be made available to the public and contain a list of species of fish and wildlife, including tropical fish and invertebrates, that do not require an importation, exhibition, propagation, or possession permit, and may be traded by commercial pet shops. Unrestricted Species must be maintained in a humane and safe manner that does not jeopardize public health and safety, the welfare of the animal, or cause a public disturbance.

2. Prohibited Species: *A person cannot possess any wildlife on this list.*

Species which the commissioner, in consultation with the technical committee have determined pose a significant risk to Maine’s native flora and fauna, to the public welfare or to domestic animals shall be designated as prohibited and no permit shall be granted. The commissioner may make an exception and authorize limited possession of these species by accredited research facilities in cases where there is a significant public benefit. The Prohibited Species List is located within section 7.18.

3. Restricted Species: *A person can possess any wildlife on this list with a permit.*

Notwithstanding section 7.12, Restricted Species shall require a permit before the species can be possessed, imported, exhibited, propagated, or rehabilitated.

A. Category 1 Restricted Species:

- (1) **Criteria:** The Commissioner, in consultation with the technical committee, shall consider the following criteria to determine whether a species will be listed as a Category 1 Restricted Species:
 - (a) It does not meet the criteria of a Prohibited Species and when:
 - (b) It is included on a state or federal list of endangered or threatened species in the United States, or is listed in Appendix I of the Convention on International Trade in Endangered Species; or
 - (c) It is known to harbor and capable of disseminating an agent substantially harmful to humans, domestic livestock, poultry, native wildlife, other animals, or Maine flora; or

- (d) It has a geographic distribution and life requisites that would allow it to survive in Maine if accidentally or intentionally introduced into the wild; or
 - (e) It is included on the USFWS list of Injurious Species; or
 - (f) It is capable of inflicting serious bodily injury to humans; or
 - (g) It has unique requirements for housing or care that cannot be provided outside of professionally designed and operated facilities.
- (2) **Conditions and Restrictions:** in order to import, possess, propagate, rehabilitate, or exhibit a Category 1 Restricted Species, the following conditions must be met, notwithstanding section 7.12:
- (a) **Permit Required:** An applicant for a permit pertaining to Category 1 Restricted Species must be an exhibitor, wildlife rehabilitator, laboratory registered with the United States Department of Agriculture, or accredited research facility.
 - (b) **Contact by the Public Prohibited:** An applicant for a permit pertaining to Category 1 Restricted Species must not allow Category 1 Restricted Species to be accessible for handling or contact by the general public, unless specifically authorized by the commissioner.
 - (c) **Safety Measures:** An applicant for a permit pertaining to Category 1 Restricted Species must maintain the Category 1 Restricted Species under conditions that give the owner or keeper exclusive control over them at all times as to prevent loss or risk of injury to the public;
 - (d) **Credentials Required:** An applicant for a permit pertaining to Category 1 Restricted Species must submit documentation to verify a minimum of one year of practical husbandry or a minimum of 100 hours of formalized training or apprenticeship in the care, feeding, handling and husbandry of the Category 1 Restricted Species to be possessed or of another species that is substantially similar to the species to be possessed in size, characteristics, care and nutritional requirements. A Bachelor of Science or higher degree in a relevant biological science, obtained at an accredited institution of higher learning, may be substituted for 50 hours of apprenticeship. Documentation shall consist of: a description of the specific experience acquired; the date and time the experience was obtained and the specific locations where acquired; and a minimum of two references from a professional organization such as a university, zoological association, or governmental institution.
 - (e) **Emergency Plan:** A written emergency plan must be submitted with the application for use in the event of occurrences such as: severe damage to enclosures due to fire, wind, or floods; animals attacking and /or injuring humans, other animals or property; the escape of any animal in captivity; and absence, illness, or death of the owner or keeper. The plan must include:
 - (i) An updated list of the Category 1 Restricted Species in captivity;
 - (ii) The availability of capture equipment and weapons with specific instructions as to the precise circumstances under which dangerous wildlife are to be destroyed.
 - (iii) Contingencies for the maintenance or disposition of all Restricted Species covered by the permit in the event of the owner or keeper's absence, illness, or death.
 - (iv) The plan must be made available for inspection upon the request of a law enforcement officer, firefighter, department representative or Animal Control Officer.

B. Category 2 Restricted Species:

- (1) **Criteria:** The commissioner, in consultation with the technical committee shall consider the following criteria to determine whether a species will be listed as a Category 2 Restricted Species:
 - (a) It does not meet the criteria of a Prohibited Species or Category 1 Restricted Species and when:
 - (b) It requires special housing or care that cannot be provided by persons without training or experience; or
 - (c) It requires a special commitment to ensure proper care and welfare
- (2) **Conditions and Restrictions:** In order to import, possess, propagate, rehabilitate, or exhibit a Category 2 Restricted Species, the following conditions must be met, notwithstanding section 7.12:

- (a) **Permit Required:** An applicant for a permit pertaining to a Category 2 Restricted Species must be an exhibitor, rehabilitator, laboratory registered with the United States Department of Agriculture, accredited research facility, or an individual with demonstrated experience with the care and husbandry of the species for which a permit is requested or a species which is substantially similar to the species for which a permit is requested;
- (b) **Safety Measures:** An applicant for a permit pertaining to a Category 2 Restricted Species must maintain the animal under conditions that give the owner or keeper exclusive control over them at all times as to prevent loss or risk of injury to the public;
- (c) **Maintenance Plan:** An applicant for a permit pertaining to a Category 2 Restricted Species must submit a plan for the maintenance or disposition of all Category 2 Restricted Species in the event of the owner or keeper's absence, illness, or death;
- (d) **Credentials Required:** An applicant for a permit pertaining to a Category 2 Restricted Species must submit documentation to verify a minimum of one year of practical husbandry or a minimum of 100 hours of formalized training or apprenticeship in the care, feeding, handling and husbandry of the species to be possessed or of another species that is substantially similar to the species to be possessed in size, characteristics, care and nutritional requirements. A Bachelor of Science or higher degree in a relevant biological science, obtained at an accredited institution of higher learning, may be substituted for 50 hours of apprenticeship. Documentation shall consist of: a description of the specific experience acquired; the date and time the experience was obtained and the specific locations where acquired; and a minimum of two personal references.

4. Unclassified Species: A person may not possess any species that has not been classified.

Any species which has not been identified as a Prohibited, Restricted, or Unrestricted species will not be eligible for a permit under this chapter.

5. Requests to Review or Change the Categorization of a Species: must be made on application forms provided by the department. Applicants shall bear the burden of proof in proving that a species belongs in the requested category. Applications submitted with supporting documentation are evaluated by the commissioner or commissioner's designee and the Technical Committee.

- A. Commissioner's Evaluation Criteria for Review of Requests to Change Categorization of a Species:** Considering the recommendations of the Technical Consulting Committee, which are advisory in nature, the commissioner may change the status of a species according to the criteria established in this section.
- B. Notification:** When the commissioner approves or denies a request for review of categorization, a written notification will be sent to the applicant. When the commissioner denies a request, the department will advise the individual or entity making the request of the basis for the denial.

7.07 Permit Types:

- 1. Importation Permit:** No species of wildlife, except those listed by the commissioner as Unrestricted or those which are in continuous transit through Maine as provided within 7.11, shall be imported into the State of Maine without a Wildlife Importation Permit issued by the commissioner. For the purpose of this regulation, importation includes transporting or relocating into Maine either on a permanent or temporary basis, any regulated wildlife by any means including the subsequent possession of other vertebrates not subject to the wildlife definition pursuant to 12 M.R.S. §10001.
- 2. Exhibitor Permit:** The commissioner may issue an exhibitor permit to a person or institution, pursuant to 12 M.R.S. § 12152, for the purpose of keeping wildlife (except wolf hybrids) in captivity for commercial exhibition, attracting trade, or for educational purposes.

3. **General Possession Permit:** The commissioner may issue a general possession permit to a person or institution, pursuant to 12 M.R.S. § 12152, to possess any Restricted Species, for the following purposes:
 - A. Serious professional or avocational husbandry or;
 - B. Personal use or;
 - C. Research or;
 - D. Education.
4. **Game Bird Propagation Permit:** The commissioner may issue a game bird propagation permit to a person or institution, pursuant to 12 M.R.S. § 12152, to possess pheasants, quail, chukar partridge or Hungarian partridge for the purpose of propagating, breeding and/or rearing for consumption, sale, or release.
 - A. **3-Day Hold Permit:** A 3-day hold permit is valid for 1 calendar year and allows for multiple uses as long as each use is for 3 days or less. There is no cage inspection requirement because this permit authorizes the use of small, travel size cages when the permittee is holding these birds for 3 days or less for the purpose of training dogs or releasing.
 - B. **1-Year Permit:** Issued for wild birds that will be held up to 1 year.
5. **Rehabilitation Permit:** Pursuant to 12 M.R.S. § 12152, a wildlife rehabilitation permit is required to possess debilitated or orphaned wildlife for the purpose of restoring them to full health and release to the wild, or to be humanely euthanized.

7.08 Application Procedures for All Permits:

1. **Age of Applicants:** Applicants must be 18 years of age or older.
2. **Application Process:**
 - A. Applications for permits to import, possess, propagate, rehabilitate, or exhibit a Restricted Species shall be made on application forms provided by the department.
 - B. The department will review the application and respond to the applicant with its decision or to request additional information. Decisions will usually be provided within 45 days of the submission of the application.
 - C. The department will conduct a preliminary review of the application to determine if the applicant meets the basic criteria for the issuance of the permit requested.
 - D. A site inspection of the facility where the wildlife will be kept may be required before a permit is issued (see section 7.09).
 - E. The department may issue a conditional approval that requires the applicant to meet additional criteria before a final permit is issued.
3. **Permit Denial:** The commissioner may deny a permit request when:
 - A. The applicant has failed to demonstrate that the purpose for which the permit is sought is legitimate under the law, or has failed to demonstrate that legitimate and appropriate methods for the keeping and care of the species would be utilized.
 - B. The applicant does not have appropriate facilities or has failed to satisfactorily demonstrate the capability and qualifications to perform the functions required.
 - C. The applicant has not met the conditions and requirements established in this Chapter.
 - D. The applicant has failed to disclose information required or has made false statements as to any material fact in connection with their application.
 - E. The applicant fails to comply with or respond to a notice of corrective action within the required timeframe. The notice of corrective action may apply to a condition that must be met in order for a permit to be issued, or to a condition that must be satisfied in order for a permit to be renewed.

- F. The applicant has been adjudicated of a civil violation, or convicted of any crime relating to the activity for which the permit is sought.
 - G. The applicant, within the 10 years prior to applying for the permit, has been convicted under a criminal law involving cruelty to animals that is no longer in effect, or within 10 years prior to applying for the permit, has been adjudicated of a civil violation for cruelty to animals under 7 M.R.S. chapter 739 or has been convicted or adjudicated in any other state, provincial or federal court of a violation similar to those specified in this section.
- 4. **Notification:** When the approves or denies a permit request, a written notification will be sent to the applicant. The decision notice will state the reasons for the denial.
 - 5. **Appeal Process:** An applicant or permittee under this section who wishes to contest a decision of the department may request an administrative hearing in accordance with 5 M.R.S., chapter 375. The hearing request must be filed in writing to the commissioner within 10 days of receipt of the decision. If a hearing is held, the commissioner may consult with such experts and professionals as may be appropriate to substantiate issues of public health and safety, animal welfare, or other facts relevant to the department's responsibilities under this chapter in making a decision.
 - 6. **Transfer of Permits Prohibited; Exception for Importation and Exhibition:** Permits are non-transferable; except any person/s employed by or under contract to a permitted importer or exhibitor may carry out the authorized activity. A copy of the permit must be carried by the individual while conducting activities under the permittee's supervision.

7.09 Site Inspection:

- 1. **Wildlife in Captivity Inspectors:** The commissioner may designate Wildlife in Captivity Inspectors to carry out routine inspections of wildlife facilities in Maine that are under the Department's jurisdiction, including required records.
 - A. An inspection is required prior to the issuance or renewal of any possession or exhibition Permit for a Category 1 or Category 2 Restricted Species. Exception: The commissioner may waive the requirement for a site inspection if a facility can provide proof of current accreditation by a recognized zoological association.
 - B. Completed inspection reports must be submitted to the department before a permit will be issued.
 - C. Permit applicants are responsible for all costs associated with the inspection of their facility by Wildlife in Captivity Inspectors and must submit the completed inspection form to the department.
- 2. **Department Personnel and Animal Welfare Agents:** Inspections of wildlife facilities (including wildlife rehabilitators) and required records may be conducted by authorized department personnel and animal welfare agents at all reasonable times. Findings of inspections may be provided in writing to the permittee upon request.

7.10 Standard Conditions and Restrictions Governing All Wildlife in Captivity Permits:

1. **Species with Special Needs or Considerations:** The commissioner may set special conditions on a permit to mitigate potential impacts on, or from, wildlife having special needs or considerations and to ensure the welfare of such wildlife and the public. These conditions may include housing and care requirements, microchipping of certain species or the prohibition of public contact. For some Category 1 restricted species (such as elephants) a facility that affords protected contact for the handlers may be required. The commissioner may also require certain animals to be spayed or neutered in order to prevent reproduction by the species when such reproduction would pose a risk to the wildlife or people or the State of Maine. The commissioner may seek the advice of experts on the species involved to provide for such special needs and to ensure the welfare of the wildlife.
2. **Federal Permit Requirements:** If applicable, proof must be furnished of a valid federal wildlife possession or importation permit, and compliance with the Convention on International Trade in Endangered Species (CITES).
3. **Display of Permit:** All persons issued wildlife in captivity permits must display the permit at the location the animal is being housed and make the permit available for inspection by licensed Wildlife in Captivity Inspectors, department representatives and animal welfare agents.
4. **Records:** The permit holder must maintain complete and accurate records for each Category 1 and Category 2 Restricted species in its possession. The records must identify:
 - A. The species, sex, age, of each animal;
 - B. Date of birth and acquisition;
 - C. If applicable, the name and address of any person who has previously possessed the animal and date of transfer (transfers must be approved by the department); and
 - D. The date of the death, loss or transfer to another person of each animal;
 - E. The records required by this subsection must be kept in chronological order, for a minimum of five years after the date of death, loss, or transfer of any wildlife and the records must be made available for inspection at all reasonable times upon request of the commissioner or the commissioner's designee, departmental representatives and animal welfare agents.
5. **Addition of New Species or Individuals Prohibited:** The addition of any new species, or increase in the numbers of previously permitted species, except by birth, must be approved by the commissioner before they may be possessed or added to a valid permit under this Chapter. Any increase in the numbers of a previously permitted species that occurs through reproduction must be reported to the department within 30 days of birth.
6. **Security and Shelter:** Wildlife held in captivity must be confined, contained, controlled, and sheltered in such a way as to protect it, and to protect property of others and the health and safety of the public.
7. **Health and Comfort:**
 - A. All wildlife held in outdoor enclosures must be provided with adequate shelter from inclement weather and direct sunlight. Each cage or enclosure must have shelter sufficient to simultaneously protect all wildlife contained therein.
 - B. All wildlife must be provided with living quarters that maintain a temperature meeting the biological needs of the animal. Wildlife housed indoors must be provided with appropriate lighting and humidity.
 - C. All wildlife must be provided with appropriate veterinary care including but not limited to care for injuries and for the control of contagious, parasitic, and nutritional diseases.

- D. No wildlife may be chained or otherwise tethered to a stake, post, tree, building or any other anchorage at any time except for training or other controlled activities, for medical treatment or grooming of such animals or as otherwise provided herein. This condition does not apply to diurnal birds of prey.
8. **Sanitation:** All cages and enclosures must be kept in a sanitary condition. Regular cleaning schedules must be maintained. Cages may not be stacked in such a way that excrement may enter lower enclosures.
9. **Food and Water:** All permitted wildlife must be provided necessary sustenance. This includes:
- A. An adequate supply of potable water that is made available in cages and enclosures for drinking, washing or other purposes necessary to the species being contained.
 - B. Regular feeding schedules; the rations supplied must be adequate, nutritious, and so far as possible consistent with the food which is ordinarily eaten by such animals in the wild. Food must be sufficient to maintain good body condition, and age appropriate size and weight with a healthy appearance.
 - C. Areas used for the preparation and storage of food must be sufficiently clean to prevent contamination by pathogens or harmful substances. Meat, fish and fresh fruits and vegetables to be fed to animals must be properly refrigerated to prevent spoilage.
 - D. Food for animals must be stored in such a way as to prevent damage from weather, rodents, insects and animals.
10. **Notification:** A person who possesses a restricted species shall immediately notify law enforcement officials of any escape of the regulated animal. The permit holder will also be subject to “cost of recovery” as described in 7.13.
11. **Handling Techniques:** Handling of wildlife must be done as expeditiously and carefully as possible and in such a way as to avoid unnecessary discomfort, behavioral stress, or physical harm to the animal. Where permitted, handling of wildlife in public settings or displayed in advertising materials must demonstrate professional techniques and methods that consider public health and safety, the welfare of the animal, and an awareness of disease or parasite transmission.

7.11 Conditions and Requirements for Each Type of Wildlife in Captivity Permit:

1. **Wildlife Importation Permit:** In addition to the requirements described in 7.10, the following conditions and requirements apply:
- A. **Permit Not Required:** A wildlife importation permit shall not be required for wildlife that is in continuous transit through Maine, so long as the wildlife is fully contained and transported in a manner that does not allow it to come into contact with humans, livestock, poultry, or native wildlife.
 - B. **Eligible Wildlife:** Only wildlife that has been bred in captivity is eligible for importation, unless otherwise authorized by the commissioner. Importation of native wildlife that has been captured from the wild may be permitted as part of an approved program to aid in the recovery of a threatened or endangered species.
 - C. **Health Certificate:** The applicant must furnish the commissioner with an interstate health certificate/certification of veterinary inspection and appropriate test results or statements about specific diseases. This certification must comply with the standards of the state of origin and issued by a veterinarian licensed in the state of origin. USDA accreditation of the veterinarian may be required for certain livestock and poultry disease testing. Information required on the health certificate must include:
 - (1) Common and scientific name(s) of species;
 - (2) Number to be imported;
 - (3) Name and address of consignor and consignee;

- (4) Origin or shipment;
- (5) Destination of shipment;
- (6) Appropriate descriptions of animals by criteria such as sex, age, weight, coloration, tag numbers, brand, etc.
- (7) A health certificate must be signed by a qualified veterinarian and the owner or owner's representative from the point of origin.
- (8) The Department of Agriculture, Conservation and Forestry and the Department of Health and Human Services has the authority to approve disease test procedures and serve as the state's representative in interpreting the results of all tests administered in compliance with importation statutes and regulations.

2. Wildlife Exhibitor Permit: In addition to the requirements described in 7.10, the following requirements and conditions apply:

- A. Public Programs Required:** Applicants must conduct public programs involving the exhibition of the wildlife subject to this section and in the exhibitor's possession, and maintain documentation thereof. Such public programs must consist of at least forty programs or attendance by at least 500 members of the public within the first two years of obtaining an exhibitor permit, and for every two years thereafter. The department may waive the requirement for public programs if the wildlife is exhibited as part of an accredited educational program.
- B. Federal Permit:** For purposes of importing or possessing mammals, applicants must submit a copy of a Class C ("exhibitor's") license issued by the United States Department of Agriculture pursuant to the Animal Welfare Act (7 USC 54), and a copy of the last inspection report signed and dated by the United States Department of Agriculture.
- C. Employees:** Assurance must be provided that a sufficient number of adequately trained employees will be utilized to comply with these rules.
- D. Insurance Required:** Applicants must submit proof of holding at least \$500,000 in general liability coverage.
- E. Public Contact Restricted:** For dangerous wildlife, barriers such as walls, fences, moats, retaining rails or other necessary devices must be present and adequate to prevent the public from approaching the cages, pens, enclosures or areas near enough to inadvertently make contact with the wildlife.
- F. Signage:** Signs must be conspicuously posted on permanent cages or enclosures, requesting that the public refrain from annoying animals.
- G. Feeding:** Unauthorized feeding of wildlife by the public is prohibited. Food must meet the standards set forth in these rules.

3. General Possession Permit: In addition to the requirements described in 7.10, the following requirements and conditions apply:

- A. Native Species Prohibited:** Possession of any Restricted Species that is native to Maine is prohibited.
- B. Public Contact Restricted:** No species may be allowed to roam freely outside a containment area, taken off the premises of the permittee, or taken into a public area, except for veterinary care, transfer to a person permitted for the possession of the species, or as may be otherwise approved by the commissioner. Wildlife must be controlled or contained at such times in order to prevent contact with the public.

4. Game Bird Propagation Permit: In addition to the requirements described in 7.10, the following requirements and conditions apply:

- A. Propagation of any Restricted Species that is native to Maine is prohibited, except as part of an approved program to aid in the recovery of Threatened or Endangered Species.**

5. Wildlife Rehabilitation Permit: In addition to the requirements described in 7.10, the following requirements and conditions apply:

- A. **Species Prohibited:** Rehabilitation of black bear, moose, white-tailed deer, wild turkey, species that are listed as Threatened or Endangered, and any species that is not native or naturalized to Maine is prohibited, except as authorized by the commissioner. Any wildlife rehabilitator may temporarily possess these species in order to provide emergency care that is required to stabilize the condition of an animal prior to a transfer to a rehabilitation facility that has been authorized by the commissioner to care for the species.
- B. **Examination Required:** First time applicants must successfully complete an examination prescribed by the commissioner, which may include a written test, to show proficiency and knowledge in the area of wildlife husbandry and rehabilitation and the pertinent laws of the state and rules of the department. Exception: Applicants who have previously held a wildlife rehabilitation permit and are applying for a new permit will be required to take a written examination if they have not successfully passed an exam within the past 3 years. This requirement will also apply to permitted wildlife rehabilitators that have not actively rehabilitated wildlife within the past 3 years.
- C. **Authorized Activities:** Persons to whom a permit is issued are authorized to engage in the activity specified in the permit for the prescribed time unless the permit is terminated. A rehabilitation permit does not provide for ownership of any wildlife by individuals or institutions, or for any other use of wildlife beyond that associated with the rehabilitation or approved educational use of the wildlife species involved. Wildlife possessed pursuant to a rehabilitation permit may not be sold, bartered, or traded, although the transfer of debilitated wildlife to another permittee for treatment or care is not prohibited. Non-releasable wildlife may not be transferred to other more appropriate facilities without prior permission from the department before a transfer occurs.
- D. **Costs:** The permit holder is responsible for the costs of rehabilitation, including food and shelter, veterinary care, any labor or consultation charges, transportation or any other costs or charges associated with the rehabilitation of wildlife. A permit holder may not charge any third party for such costs unless the permit holder is a licensed Maine veterinarian. Voluntary contributions to rehabilitation facilities or organizations may be accepted.
- E. **Minimum Standards:** All rehabilitation activities must meet minimum standards as published by the International Wildlife Rehabilitation Council, and/or National Wildlife Rehabilitation Association.
- F. **Credentials Required:** Applicants must submit documentation to verify successful completion of a minimum of 100 hours of formalized training or apprenticeship at an approved facility in the care, feeding, handling, and rehabilitation of native wildlife species. A Bachelor of Science or higher degree in a relevant biological science, obtained at an accredited institution of higher learning, may be substituted for 50 hours of apprenticeship. Documentation must consist of:
- (1) A description of the specific experience acquired;
 - (2) The date and time the experience was obtained and the specific locations where acquired; and
 - (3) A minimum of two references from a professional organization, currently permitted wildlife rehabilitator, or governmental institution such as a university, zoological association, or federal agency;
- G. **Disposition of all Wildlife Subject to Rehabilitation:** All wildlife subject to rehabilitation must be released to the wild at the earliest appropriate time, or humanely destroyed, and may not be kept in captivity beyond 6 months. The commissioner may, upon request, extend this time period. All wildlife that is released into the wild must be released within 10 miles of the location where it was captured, unless otherwise authorized by the commissioner.
- H. **Dependency on Humans:** All practicable measures must be taken to prevent wildlife dependency on humans.
- I. **Records; Reports and Permit Renewal:** The permit holder must maintain complete and accurate records of any activity conducted pursuant to such permit. A report of these activities must be submitted to the commissioner within 30 days following permit expiration or with request for renewal. Report forms may be provided by the commissioner.

- J. Threatened or Endangered Species:** Notification must be made to the department within 48 hours if the permit holder takes possession of an animal that is included on the Maine Endangered Species or Threatened Species list.
- K. Public Viewing:** Wildlife rehabilitators may request authorization from the commissioner to allow public viewing of wildlife contained in their facility for educational purposes.

7.12 Exceptions and Conditions for Specific Restricted Species

- 1. Exception for Therapy Animals:** Capuchin monkeys (primates in the Genus Cebus and Sapajus) may be possessed by individuals requiring them as a therapy animal if the following conditions are met:
 - A. The applicant/permit holder demonstrates a legitimate need for physical aide from a primate, and the animal in question is specifically trained for such purposes, or the applicant must be providing foster care or training for the primate under direction or supervision of a recognized authority for same;**
 - B. The animal is supplied by, or approved by, a recognized institution or organization specializing in such use of primates;**
 - C. The primate held in captivity for said purposes is vaccinated as may be prescribed by a qualified veterinarian or public health official, and is prevented at all times from direct contact with the public in such a way that physical injury or disease transmission may occur.**
- 2. Wildlife in the Family Cervidae:** Upon death, the head of any species in the family Cervidae must be submitted to the Department of Agriculture, Conservation, and Forestry for disease testing.
- 3. Wolf Hybrids:** No Wolf Hybrid may be permitted under this chapter unless the applicant has first presented proof from a licensed veterinarian that:
 - A. The wolf hybrid has been permanently identified in accordance with 7 M.R.S. § 3921-A;**
 - B. The wolf hybrid has been spayed or neutered; and**
 - C. All other criteria for a Wildlife Possession Permit have been met.**
- 4. Disposition of Wolf Hybrid at large**
 - A. Owner of wolf hybrid located.** If a wolf hybrid at large is licensed under 7 M.R.S. § 3922, §3-B or 12 M.R.S. § 12152 or its owner can otherwise be identified and located, an animal control officer or person acting in that capacity shall take the wolf hybrid to its owner and may issue citations for violations of 7 M.R.S. § 3911-B.
 - B. Unable to locate owner.** In the event owner of record cannot be located, an animal control officer or person acting in that capacity shall take the wolf hybrid to the animal shelter designated by the respective municipality in which the wolf hybrid was found. An animal shelter that accepts a wolf hybrid under this subsection is entitled to receive from the department the sum of \$4 a day for the period for which food and shelter are furnished, not to exceed 6 days. The wolf hybrid will be held for 6 days during which the owner may reclaim the animal provided it is sufficiently demonstrated that animal is/will be properly licensed under 7 M.R.S. or 12 M.R.S. Upon expiration of the 6-day period, ownership of the wolf hybrid is vested in the shelter. The animal shelter shall:
 - (1) Transfer ownership of the wolf hybrid to a person holding a permit to possess wildlife under 12 M.R.S. § 12152 who is authorized to accept wolf hybrids in compliance with rules adopted under 12 M.R.S. § 12160(2) or,**

- (2) After keeping the wolf hybrid for 8 days, euthanize the wolf hybrid humanely in accordance with 17 M.R.S. Chapter 42, subchapter 4.

7.13 Costs of recovery:

1. **Escape of Restricted Species:** Restricted Species that have escaped the permit holder's holding facilities and/or control, and that are determined by the commissioner to be detrimental to public safety, native fish and wildlife habitat, or any of the state's fish and wildlife resources by threat of predation, the spread of disease, habitat competition, interbreeding with native fish or wildlife, or other significant damage, may be seized, captured or, where necessary, destroyed by the department, or any law enforcement officer, for the purpose of protecting and preserving Maine's fish and wildlife and their environment. The commissioner may consider such escaped wildlife to be a public nuisance and seek to hold the permit holder thereof responsible for any costs incurred in recovering, holding, testing for disease, or disposing of such wildlife, as well as any damages to the state's wildlife resources.
2. **Financial Security:** Prior to issuing a permit, the commissioner may require that a bond or other financial security for the potential costs associated with the recovery, handling or disposition of any permitted wildlife be posted. Such bond, if required, must be maintained in force until the disposition of the animals has been approved by the department.
3. **Confiscation:** The permit holder shall be responsible for all costs incurred by the state resulting from the necessary confiscation of animals from the premises of the permit holder or as the result of the revocation of the permit.
4. **Wildlife That Are Illegally Possessed:** Restricted Species that are illegally possessed may be seized, captured or, where necessary in cases of disease, public health, human safety, or threats to the state's fish and wildlife, destroyed by the department. The owner thereof shall be responsible for any costs incurred in recovering, holding, testing for disease, or disposing of illegally possessed wildlife, as well as any damages to the state's fish and wildlife resources, under appropriate law. Pursuant to 12 M.R.S. §10503-6 a court may render judgment against the person illegally possessing wildlife to cover costs incurred to remove or euthanize the fish or wildlife possessed without a permit.

7.14 Complaints

Complaints pertaining to wildlife in captivity will be investigated and findings associated with that investigation may be considered at the time of permit renewal. If warranted a permit may be suspended or terminated in accordance with 12 M.R.S § 10902. Any termination or suspension of a permit may be appealed in accordance with the administrative hearing procedures described above.

7.15 Penalties

Any violation of these rules and regulations or the conditions of any wildlife in captivity permit may subject the permit holder to the following:

- A. Civil or criminal penalties as provided for in law.
- B. Revocation of any wildlife in captivity permit issued by the department. When revoked, permits must be surrendered to the commissioner. When a permit is revoked and the appeal period has expired, the permit holder will be required to transfer any wildlife held under the permit to another permitted facility under a plan approved by the department.
- C. Suspension of permit: when a permit is suspended the department will notify the permit holder of any conditions that must be corrected and when a follow-up inspection will be conducted to assure those conditions have been met before the permit may be re-instated.
- D. Confiscation of any restricted wildlife species in the possession of the violator.

E. Suspension of public visitation to Wildlife Exhibitors until such time as the violation is remedied.

7.16 Transition and Grandfathering Provisions for Current Permit Holders: Any person or organization who, on the effective date of these rules, holds a valid permit to import, possess, exhibit, rehabilitate, or propagate wildlife, must comply with the provisions contained in this chapter by January 1, 2018, or prior to a request to add new individuals or species to their existing permit. All permit holders that legally possess a Prohibited or Restricted Species as of the effective date of these rules, but who do not comply with the provisions contained in this chapter by January 1, 2018, will be authorized by the commissioner to retain the individual animals currently in their possession until such time that the animal dies, however the commissioner may place conditions on their permit to ensure the welfare of the animal or to protect native wildlife, domestic animals, or the public. Conditions may include requiring the animals to be tattooed or microchipped. Any offspring that are born to Prohibited or Restricted species that are in the possession of a permit holder through this grandfathering clause must be euthanized or transferred to another facility approved by the department.

7.17 Care and Housing Requirements:

1. Unless otherwise specified, the department shall require minimum caging requirements for individual restricted species as described within the Zoological Association of America's Animal Care & Enclosure Standards and Related Policies 2016 Version, Section 5 through 7. The requirements can be located at: www.zaa.org.
2. Wildlife rehabilitators must comply with the minimum housing requirements published by the International Wildlife Rehabilitation Council and/or National Wildlife Rehabilitation Association.
3. The commissioner may require additional or more specific housing or care requirements for individual permits as necessary.

7.18 Species Lists

1. Prohibited Species:

- A. Red-eared slider (*Trachemys scripta*);
